## Liberation from constraints with cloud-native platforms and services

Remember the days when the cloud was an enigmatic “thing”? It was a mysterious concept that no one could quite seem to grasp.

Not anymore. Now we know what the cloud can do, and what we can do with it.

Legacy systems don't cut it anymore. There's a myriad of reasons why: too expensive, not agile, limited talent available, poor real time decision making, and a lack of quality customer and employee experience. Operating in these systems is tiresome, time-consuming, impractical, and costly. You need liberation from the constraints.

Ascendion uses cloud engineering as a key part of the digital transformation journey to maximize value for our clients. With Ascendion's cloud-native approaches, your enterprise can benefit from optimized cost structures, an abundance of talent, lightning fast insights, and more reliable and efficient environments. The end result: a tech infrastructure fit for business goals and growth.

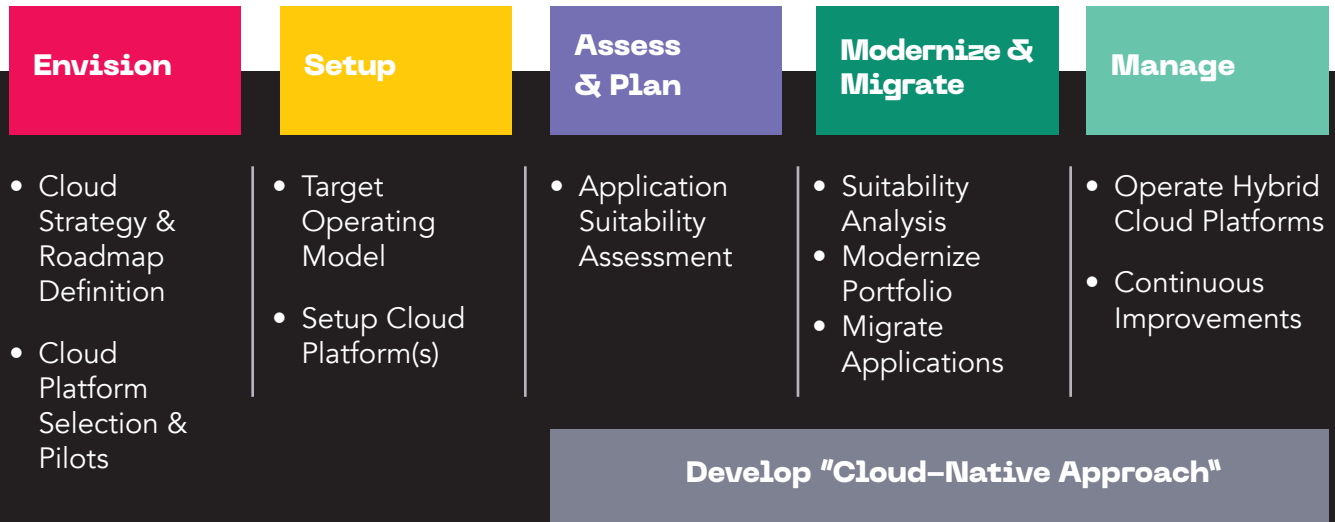

Accelerate  
migration time by  
**as much as 55%**

Reduce costs  
of IT management  
operations by  
**up to 25%**

# Cloud Engineering Transforms Business

Ascendion executes cloud transformation through a well-disciplined process. These actions are crucial and imperative for a successful transformation.

## STRATEGY

Ascendion helps clients accelerate the digital transformation journey with well-defined cloud strategy. Starting with strategy, an effective cloud roadmap sets a course for the future, migrating existing platforms and infrastructure to the cloud, and building new cloud-native applications.

## CLOUD ECONOMICS AND OPERATIONS

Rapidly expanding cloud ecosystems demand an effective and cost-optimized CloudOps process to succeed.

## INTEGRATED MULTI-CLOUD INTELLIGENCE

Perfect an intelligent multi-cloud strategy to create an infrastructure that aligns with business goals.

## MIGRATION

Ascendion's cloud migration approach is powered by automation, security, and tools that ensure accelerated migration of applications, data, and workloads to a cloud-based environment. Perfecting a repeatable framework that enables enterprises to scale, accelerate, and standardize their application transformation and cloud migration.

# Ascendion AVA Intelligent Cloud Economics

Save up to 30% in cloud operations costs

Ascendion AVA (A.AVA) is an intelligent digital engineering platform that accelerates the pace of change across business, IT, and operations. With A.AVA ICE, get maximized value of your cloud spend using the power of AI/ML-powered cloud economics practices. A single-point dashboard of cloud economics with real-time views of cloud spend visibility, recommendations, and optimization.

Optimize the existing use of the cloud by **30%**

**2X-3X** quicker and better financial reports on cloud cost

Remediation across **multi-cloud**

Metrics and **dashboard view** to analyze cloud service costs

# The Ascendion Advantage

With cloud engineering, the benefits seem endless. We analyze and address our client's challenges and find the best solution to help their business now and down the road.

## ACCESS TO DEDICATED, HIGHLY SKILLED IT TALENT

Implementing enterprise cloud solutions is complex. With Ascendion's unique approach combining tech and talent, we have a network of more than 2.3 million skilled professionals to call on to support our clients' core cloud technology and competency needs.

## FLEXIBLE ENGAGEMENT MODELS & QUALITY OUTCOMES

Our cloud-native application development services leverage a cost effective offshore model, to free up budget to innovate in other areas.

## EXPERTISE IN INFRASTRUCTURE AND APPLICATION MIGRATION SERVICES

Ascendion's deep experience with legacy migrations and next-gen environments has given us real-world insight into what really works to develop scalable, proven strategies that deliver enterprise optimization and efficiency.

## CLOUD COMMUNITY OF EXCELLENCE

Ascendion Circles and the Cloud Community of Excellence combines people, process and tools with cross-practice, end-to-end cloud solutions across applications, infrastructure, IT service management and information security.

Not only can we successfully provide a cloud strategy and roadmap to migrate your business to the cloud, but we can train your organization in developing and maintaining cloud-native platforms. This puts the power in your hands.

# Liberating Business Outcomes

Wellness Service PROVIDER	Global Leading AIRLINE	U.S. Specialty RETAILER
Cloud migration to enhance member experience	Unified "print-as-service" for airport systems	Transparent supply chain and new customer data hub
<b>90%</b> Workload moved to Azure and cloud-native	<b>99%</b> increased reliability on new application	<b>70%</b> in-store product availability improvement
<b>30%</b> Increase in employee productivity	<b>\$3.5M</b> saved on print system outages	<b>40%</b> cost savings from the cloud
<b>\$3M</b> USD reduction in Total Cost of Ownership (TCO)	<b>20%</b> 20% reduction of cost operations	<b>\$5M</b> lost sales recovered

## How can we help?

Ascendion's cloud engineering capabilities provides freedom from tech limitation with a solid strategy, smooth migration, successfully engineered cloud-native applications, and effective cloud economy and operations. We look at the big picture and provide a solution that will help now and down the road.

We're doing this for some of the top companies in the world, and we'd love to help you too. Let's have a conversation about how Ascendion can kick start your digital transformation with cloud engineering.

## ASCENDION

### ABOUT ASCENDION

Ascendion is an ally for clients seeking enterprise digital innovation. We make and manage software platforms and products that power growth and deliver captivating experiences. By embracing the future of work, we bring creativity and execution excellence together to make digital innovation valuable (and even fun). Our engineering, cloud, data, experience design, and talent orchestration capabilities accelerate transformation for Global 2000 clients. Ascendion is headquartered in New Jersey. In addition to our remote/hybrid workforce, we have 20 offices across the U.S., India, and Mexico. We are committed to building technology that elevates life with an inclusive workforce, service to our communities, and a vibrant culture. For more information, please go to [www.ascendion.com](http://www.ascendion.com).
